

A Simple and Delicious Way to Get a Good Gut Feeling

Developed after extensive research on the digestion and beneficial effects of Ambrotose powder, **GI-ProBalance** slimsticks were formulated to work to unleash the power of Ambrotose products. The probiotic blend in GI-ProBalance slimsticks breaks down polysaccharides in Ambrotose products, which may enhance the ability of both products to support the digestive and immune systems.\*

Mannatech's GI-ProBalance powder contains both probiotics and prebiotics that work together to help friendly bacteria flourish in the intestinal tract and keep it running smoothly. This specially formulated product:

- Supports a **natural balance of good bacteria** to maintain **healthy digestion**\*, which:
  - May guard against occasional intestinal disturbances\*
  - May prevent occasional digestive upsets\*
- Promotes **natural immune function**\*
- Improves **nutrient absorption**\*
- Contains **1.5 billion CFU guaranteed** at time of expiration

Probiotics and Prebiotics: Why Are They Important?

Since 70% of your immune system is located in your digestive tract, your body relies on a wide variety of bacteria and other microorganisms to help keep it running properly, including probiotics and prebiotics.

**Probiotics**, from the Greek for "for life," are microscopic life forms that help break down food and process waste. The first line of defense against harmful bacteria, they also help support proper development of the immune system.

**Prebiotics** are indigestible food ingredients that stimulate the growth and activity of the friendly, beneficial bacteria already present in the colon. They enable probiotics to flourish and work their best.

**What about CFUs?** Research indicates that, for optimal GI tract health, you need at least one billion colony forming units (CFU) of active bacteria per day. Our GI-ProBalance powder provides 15 billion CFU of bacteria per serving at time of manufacture, and even a guaranteed 1.5 billion at its expiration date.

Additional Benefits:

- Convenient for travel, delicious, yogurt-flavored slimsticks can be taken with or without food or beverage
- Does not require refrigeration and is great for all ages, starting at age four
