

Is your body balanced for
peak performance?

The Endocrine System Is Your Body's Command Central.

When functioning well, its glands direct operations by producing vital hormones that send signals to keep you ready for anything and help your body stay balanced.

Crucial support for your glands.

Because this important control center ultimately influences almost every cell organ and function of your body, making sure it gets the nutrients it needs is a must. Mannatech's PLUS caplets, can help by keeping this vital system functioning smoothly in a state of equilibrium.*

Mannatech's PLUS caplets don't contain hormones. Instead, they provide specific nutrients, including plant sterols to support your glands' natural function.*

Could you use some support
in one of these areas?

Breast health*
Prostate health*
Bone health*
Colon health*
Immune health*
Heart health*

A Tougher Ticker!

Plant sterols are being shown to have a beneficial effect. One study showed that consuming two grams of phytosterols a day could benefit your overall heart health by 25%.¹

Take the hassle out of health and order the Optimal Support Packets, which contain Ambrotose AO® capsules, PhytoMatrix® caplets and PLUS™ caplets in a convenient on-the-go packet.

Natural nutrition your body needs.

And we don't always eat right, so we can miss out on important nutrients like plant sterols and amino acids that help keep our systems functioning well. That's why Mannatech developed PLUS caplets—to supply the body with a proprietary blend of specific, standardized nutrients, including important plant sterols and amino acids that we may not always get on a consistent basis from diet alone.

Amino acids—the “building blocks” of proteins

Did you know that of the 20 amino acids that we all need to survive, the human body produces only 10? We must rely on our diets for the other half, but not all proteins are created equal. Some contain specific amino acids for hormone productions while others do not. And because humans don't store amino acids in their bodies, we need a steady supply every day.

Take your first step toward wellness today.

Find out more about our company, our complete product line and the opportunities that await from the Mannatech Independent Associate who shared this brochure with you.

Much more personal and informative than any experience you'll find in traditional retail stores, our network of Associates care deeply about the value that our life-changing health, weight and fitness, and skin care products bring. Our Associates are passionate about sharing physical and financial wellness with others.
