Ûth Mask Recipe

You will need:

Approximately 2-3 tablespoons or
1-1.5 ounces of Emprizone gel

3-5 drops Mannatech
Lavender 100% Essential Oil

And/or 3-5 drops Mannatech
Sweet Almond 100% Essential Oil

* Those with almond or lavender allergies
should not use the Sweet Almond Mannatech
100% Essential Oil or the Lavender Mannatech
100% Essential Oil products. **For external use
only. Keep away from eyes.**

Directions:

In a small mixing bowl, combine
the Emprizone gel with the
Mannatech 100% Lavender and/
or the Sweet Almond Essential
Oils. Remember, the Sweet
Almond Essential Oil is used for
dilution, so for every two drops
of a scented Essential Oil, we
recommend using one drop of
the Sweet Almond Essential Oil.

After you have created your mask, follow these simple
steps for optimal results:

1. First, cleanse the skin using Mannatech's **Ûth Cleanser**.
2. Avoiding the eye area, apply the mask generously to the
face, neck and décolleté using your fingertips. Let the
mask sit for approximately 10-20 minutes.
3. Remove the excess mask by rinsing the face with warm
water and a warm, wet cloth.
4. Apply **Ûth Rejuvenation Crème** to nourish the skin.
5. Lastly, moisturize with **Ûth Moisturizer** to lock in hydration.

* Free shipping applies to one time orders only. Not available on automatic order.
Does not apply to loyalty redemption orders. Not for re-sale in Canada.
